

## Special Overseas Orientation Schedule

### 1A07 Headquarters

#### General

The purpose of this two day training program is to sensitize participants and their dependent spouses to the need for following good personal and physical security practices overseas. While it is realized that some people by habit, instinct, or experience are more aware of potential security threats than others, we can all improve our security status if we are aware of the risks involved and make a conscious effort to minimize them.

This Orientation is only a broad overview and an introduction to the subject, and offers no specific skills for coping with the terrorist threat and related criminal problems abroad. Employees desiring more specialized familiarization, [REDACTED] and security, should consult their Training Officers for information on regular course offerings in these subjects. STATINTL

#### Orientation Objectives

On completion of this Orientation, participants will be able to:

1. Assess their personal and family situation in terms of the nature and variety of security threats abroad, the personnel security practices at various overseas posts, and the policy of the U.S. Government in dealing with the terrorist threat;
2. Recognize the need for effective security practices while living, working, traveling, and socializing abroad;
3. Relate the suggestions and experiences of Agency officers and other U.S. personnel who have served overseas to their own need to plan for and cope with a possible hostage situation or other crises.
